

The Faculty Advisory committee has completed a survey among teachers throughout the District regarding professional development for faculty and staff. Among the questions were:

- What topics do you feel are the most important to address in professional development?
- When is the best time to hold professional development sessions?
- How can you be more successful in delivering instruction?
- What is the greatest obstacle to your successful performance as a Teaneck teacher?

The Committee will analyze the responses and research professional development areas identified by our staff. Professional development programs and opportunities will be explored and recommendations made to the Superintendent.
