Teaneck High School Report from Student Board of Education Representatives

Since the last Board of Education meeting, Back to School Nights have been held for Lowell, Whittier, Hawthorne and Teaneck High School. The schools report a large parent attendance and successful evenings. Many of our schools included, as part of the program, an effort to encourage parents to sign up for Family Access to our online grading and student information system. Our registration packet also contains information about Family Access and our registration personnel suggest that everyone take advantage of this online tool.

The Benjamin Franklin Middle School Students of the Month were honored this morning during a lovely recognition ceremony at the school. Each student received a framed certificate and there were many photo opportunities for proud parents. Thomas Jefferson Middle School will hold a National Junior Honor Society annual induction of members on Thursday, October 10th. We are proud that both middle schools elected to have chapters of the honor society, which supports student achievement and service to others.

Another shared interest between our middle schools is the launching of our new middle school track teams. A number of parents and students have expressed their pleasure that we have added this opportunity to our middle school extended school day. Teaneck HS Cross Country Coach Betances and his team met recently with the TJMS Cross Country team to practice together. BFMS will soon have a practice session with the high school team as well.

For the past several years the New Jersey Department of Education has required public schools to recognize the first full week in October as the "Week of Respect." The week is intended to tamp down incidents of harassment, intimidation and bullying (HIB). Each district school has worked to create meaningful and age/grade appropriate programs that will engage and motivate students to continue to refrain from bullying and to stand-up for others, if they witness acts of HIB.

- All schools will include anti-bullying messages as part of their morning announcements.

  Famous quotations and others words of encouragement will be used to reinforce theme of respect for self and others.

- Bryant Elementary School students will participate in a school-wide "We Are Respectful" project.

-)> Hawthorne Elementary School will end the week of activities and lessons with a school wide dance celebrating respect and caring. Also, Assemblywoman Valerie Vainieri Huttle will visit Hawthorne to participate in school activities.
-)> Lowell Elementary School students will create "No Name Calling" posters that will be. judged, with prizes awarded for winning entries.
-)> Students at Whittier School have created "Respect and Me" murals that are displayed throughout the school

Students from both middle schools will attend assemblies featuring Jeff Blum's "Respect Magic," which employs magic to convey techniques to counteract difficult situations. Benjamin Franklin Middle School students and faculty are encouraged to wear designated colors and clothing to promote the theme of the day and to demonstrate unity.

Students at Thomas Jefferson Middle School will create a "Garden of Kindness" art project.

High School students will sign pledges, nominate fellow students/teachers for acts of kindness, write and perform infomercials advocating "No Bullying." Popular songs such as "Man in the Mirror" and "Respect" will be analyzed and interpreted.

Throughout the district popular books and songs will be used as tools to build and solidify empathy for others.

2436 ACTIVITY PARTICIPATION FEE PROGRAM

The Board of Education recognizes the value of athletic competition and co-curricular activities outside the regular instructional program. However, with reduced or limited revenue and increased expenses, the Board must consider alternative revenue options to support these school-sponsored activities. Therefore, the Board of Education authorizes the establishment of an activity participation fee program as a supplemental revenue source to offset the cost of operating school-sponsored activities.

The Activity Participation Fee Program will require each pupil participating in a school-sponsored athletic or co-curricular activity to pay a one-time annual participation fee in the amount of $50 regardless of the number of activities the pupil elects to participate in throughout the school year. This per pupil annual fee shall be paid when the pupil registers/signs-up for their first activity of the school year and prior to the pupil's participation in the activity.

The activity fee shall be waived based on financial hardship using the New Jersey eligibility standards established for free and reduced price meals.

No refunds shall be made unless the pupil does not participate in any activity during the school year.

This policy will be in effect only during those school years that the Board has included the Activity Fee as an item of revenue in the approved budget. If not included, the policy is waived for that year without any further Board action needed.

If included in the approved budget, the funds will be dedicated only for sports programs and/or co-curricular activities at Teaneck High School.

5120 ASSIGNMENT OF PUPILS

The Board of Education directs the assignment of pupils to the schools, programs, and classes of this district consistent with the best interests of pupils and the best uses of the resources of this district.

Pupils shall generally attend the school located in the attendance area of their residence. The Superintendent may assign a pupil to a school other than that designated by the attendance area when such an exception is justified by circumstances and**/or** is in the best interest~~s~~ of the pupil. Every effort will be made to continue a pupil in the same elementary school **once the pupil has been enrolled in that elementary school**.

The Superintendent shall assign ~~an~~ incoming transfer pupil**s** to the school **in their attendance area of their residence provided the district's school or class size requirements can accommodate the pupil's enrollment** ~~that will afford the pupil the most appropriate educational opportunity~~. The Building Principal may assign pupils in his/her school to grades, classes, and groups on the basis of the needs of the pupil as well as the sound administration of the school.

In accordance with the provisions of N.J.S.A. 18A:36-38.a.(1), a parent of twins or higher order multiples enrolled in the same Kindergarten through eighth grade level at the same public school may request, in writing, the children be placed in the same classroom or in separate classrooms. The Principal shall make the classroom placement requested in accordance with the provisions of N.J.S.A. 18A:36-38.a.(1).

In accordance with the provisions of N.J.S.A. 18A:36-38a.(2), a parent of twins or higher order multiples enrolled in the same ninth through twelfth grade level at the same public school may request, in writing, the children be placed in the same classroom or in separate classrooms. The placement of such children shall be made at the discretion of the Principal in the best interest of the school and its pupils. The parent may appeal the Principal's classroom placement decision to the Board of Education, which shall make a final determination on the placement.

The written request must be submitted to the Principal no later than fourteen days after the first day of each school year. Parents of twins or higher order multiples enrolling after the school year commences shall request the classroom placement in writing no later than fourteen days after the first day of attendance.

In accordance with the provisions of N.J.S.A. 18A:36-38.(2)(b), a Principal may, after consultation with the pupils' parent and teachers at the end of the initial grading period, request the Board make a different classroom placement determination for the twins or higher order multiples if the initial classroom placement is determined to be disruptive to any of the pupils in the class or classes, or if the Principal concludes the initial placement does not sufficiently support the pupils' academic or social

development. Upon receiving such request, the Board shall make a final classroom placement determination.

"Higher order multiples" means triplets, quadruplets, quintuplets, or larger group siblings born at one birth. Provisions of N.J.S.A. 18A:36-38 do not apply to a school district which maintains only a single classroom for the grade level in which twins or higher order multiples are enrolled. The parent shall be responsible for any additional pupil transportation costs that are incurred by the district as a result of providing the requested classroom placement, unless the district is in agreement with the placement. In the event one of the twins or higher order multiples receives special education services, the requested placement shall not be accommodated if the placement is inconsistent with a pupil's Individualized Education Plan.

3232 TUTORING SERVICES

School staff members routinely provide time beyond their assigned responsibilities to pupils who need additional help in their academic programs. This additional help is provided by a staff member on school grounds during their free time during their workday or immediately before or after school hours. The time a staff member provides additional help to a pupil is an extension of their assigned school district responsibilities and a staff member may not charge a fee for providing this additional help to pupils.

However, the Board of Education recognizes a school staff member may be privately contracted to provide tutoring services to a pupil in addition to any additional help a pupil receives before, during, and/or after the school day. These tutoring services shall be provided to a pupil under a private agreement between the staff member and the parent and/or pupil. Private tutoring shall not take place on school grounds.

Teaneck staff members shall not recommend tutors to parent(s), legal guardian(s) or pupils, but shall instead refer the interested parties to obtain a list of available tutors from the central administrative office. The list of tutors shall be updated annually.

School staff members shall not provide any private tutoring services for a fee or any compensation to any pupil that is currently enrolled in their classes or who was in their class the prior school year. Child Study Team members and guidance counselors may not counsel or provide support services for compensation in any form to Teaneck pupils located in buildings in which the staff member is assigned. Teachers shall record in the Principal's office any instance in which they are involved in the tutoring of a Teaneck pupil.

The Board of Education assumes no responsibility, liability, or obligations for the selection of the private tutor or the quality of the private tutoring services.

The purpose of this Policy is to establish general guidelines for the issuance and utilization of any school district technology device provided to staff members. For the purposes of this Policy, "technology device" or "device" shall include, but not be limited to, portable devices such as computers, laptops, tablets, cellular telephones, or any other computing or electronic devices the school district provides to staff members to be used in their school business related responsibilities.

In the event the Board of Education provides a technology device to a staff member, the staff member shall be required to sign an agreement with the Board of Education requiring the staff member to comply with certain provisions. These provisions may include, but are not limited to:

1. A technology device provided to a staff member shall be used for the sole and express purpose of conducting official school district business;

2. Use of all such devices is subject to the school district's acceptable use of technology policies and any other Board policies regarding appropriate and acceptable conduct by a staff member;

3. All technology devices are considered the personal property of the Board of Education and shall be returned upon termination of employment with the school district or immediately upon request by the Superintendent of Schools or designee;

4. Technology devices provided by the school district to staff members may include the school district's software image and pre-loaded software for specific tasks. The installation of other software images or software on such technology devices may only be done by school district authorized staff members;

5. Staff members that are provided technology devices are expected to take all appropriate measures and precautions to prevent the loss, theft, damage, and/or unauthorized use of such technology devices. These appropriate measures and precautions for school district provided technology devices to staff members shall include, but are not limited to, the following:

   a. Keep the technology device in a locked and secured environment when not being used;

   b. Do not leave the technology device in a vehicle for prolonged periods of time, especially in extreme temperatures;

   c. Keep food and drinks away from all technology devices and work areas;

   d. Prohibit the use of any technology device by any other person except as authorized by the Superintendent or designee;

   e. Do not leave the technology device unattended at any time in an unsecured location (e.g., an unlocked empty classroom or office); and

   f. Keep the technology device in sight at all times while in public places, such as public transportation, airports, restaurants, etc.

6. Should the staff member have reason to believe the technology device may have been stolen, the staff member must:

   a. Immediately report the incident to his/her immediate supervisor;

   b. File an official police report documenting the theft; and

   c. Provide a copy of the police report to his/her immediate supervisor.

   If a staff member fails to adhere to these procedures, the staff member will be held legally and financially responsible for the replacement of such technology device. A staff member may be financially responsible for the loss or damage of a technology device;

7. A staff member must contact the district designated staff member in the event the technology device is not functioning properly or for repairs and/or required maintenance;

8. The Board of Education is under no legal, financial, or other obligation to provide a replacement technology device to any employee whose device is lost, stolen, damaged, being serviced or awaiting repairs;

9. Any technology device provided to a staff member is the property of the Board of Education. As such, the staff member shall have no expectation of privacy in the use of such device. A copy of this Policy shall be attached to the agreement that shall be signed by any staff member who receives a technology device in accordance with the provisions of this Policy.

7523 SCHOOL DISTRICT PROVIDED TECHNOLOGY DEVICES TO PUPILS

The Board of Education may provide technology devices to pupils in the district school district authorized use only. The purpose of this Policy is to establish general guidelines for the issuance and utilization of any school district technology device provided to pupils of this district. For the purposes of this Policy, "technology device" or "device" shall include, but not be limited to, portable devices such as computers, laptops, tablets, cellular telephones, or any other computing or electronic devices the school district provides to pupils to be used as part of their educational program.

A technology device made available to pupils will not be considered a textbook or supply, as defined in N.J.S.A. 18A:34-1, mandatory to a successful completion of the classroom curriculum. Therefore, because a technology device defined in this Policy is not mandatory to a successful completion of a pupil's classroom curriculum, a pupil will not be required to obtain a technology device provided by the school district as defined in this Policy. In the event the school district provides a technology device that is deemed mandatory to a successful completion of the classroom curriculum, the district will provide pupils with such a technology device consistent with its textbook or supply policies. Nothing in this Policy prohibits a pupil from using their personal technology device in accordance with school rules and regulations.

A technology device provided by the school district may include pre-loaded software. A pupil is prevented from downloading additional software onto the technology device or tampering with software installed on the technology device. Only school district authorized staff members may load or download software onto a school district provided technology device.

To receive a school district provided technology device, the parent and pupil must sign a School District Provided Technology Device Form requiring the parent and the pupil to comply with certain provisions. These provisions may include, but are not limited to:

1. A school district provided technology device must be used only by the pupil for school district authorized use;

2. A pupil shall comply with the school district's acceptable use of technology policies, which shall be attached to the School District Provided Technology Device Form, in their use of any school district provided technology device;

3. Any school district provided technology device loaned to a pupil must be returned to the school district in the condition it was initially provided to the pupil considering reasonable use and care by the pupil;

4. The parent or pupil shall be responsible to reimburse the school district the replacement cost of any technology device that is lost, damaged beyond reasonable use or beyond its value, abandoned, missing, stolen, or cannot be returned to the district in accordance with the terms of the School District Provided Technology Device Form;

5. The district may require, or offer as an option, depending on the type of technology device provided to the pupil, an insurance policy to be purchased by the parent or pupil that would cover certain losses or damage to a technology device during the time period the pupil has possession of the device. The parent or the pupil shall pay any insurance policy required deductibles in the event of a loss;

6. In the event the school district does not require the purchase of an insurance policy for a technology device or the parent or pupil elects not to purchase optional insurance, the parent and/or pupil shall be responsible for any loss or damage to the technology device in accordance with the terms of the School District Provided Technology Device Form;

7. A pupil will be required to report any hardware or software problems in the operation of the device to the school district staff member, designated on the School District Provided Technology Device Form, within two school days of the commencement of the problem;

8. A pupil must report to the school district staff member designated on the School District Provided Technology Device Form within two school days in the event the technology device has been damaged or is missing;

9. A parent or pupil is required to immediately file a police report in the event it is believed the technology device has been stolen. Within one school day after filing a police report, a parent or pupil shall complete the School District Provided Technology Device Loss Form and submit the completed Loss Form and a copy of the police report to the Principal or designee;

10. A pupil shall be required to provide routine cleaning and care of the device in accordance with school district cleaning and care guidelines;

11. The pupil shall have the technology device in their possession in school as required; and

12. Any other provisions the Superintendent of Schools determines should be included on the School District Provided Technology Device Form.

The school district will provide the pupil and parent with written or electronic notification that the technology device provided by the school district may record or collect information on the pupil's activity or the pupil's use of the technology device if the device is equipped with a camera, global positioning system, or other feature capable of recording or collecting information on the pupil's activity or use of the device. This notification shall also include a statement that the school district shall not use any of the capabilities in a manner that would violate the privacy rights of the pupil or any individual residing with the pupil. The parent shall be required to acknowledge receipt of this notification and the parent acknowledgement shall be retained by the Principal or designee for as long as the pupil retains the use of the school district provided technology device. The parent acknowledgement and a signed School District Provided Technology Device Form shall be required before the issuance of a technology device to a pupil. In accordance with the provisions of P.L. 2013, Chapter 44, a school district failing to provide this notification shall be subject to a fine of $250 per pupil, per incident. The fine shall be remitted to the New Jersey Department of Education, and shall be deposited in a fund that shall be used to provide laptop or other portable computer equipment to at-risk pupils as defined in N.J.S.A. 18A:7F-45.

Pupils shall comply with all school district policies for the use of a school district provided technology device. A pupil shall be subject to consequences in the event the pupil violates any school district policy, including the district's acceptable use policies; pupil code of conduct; any provision of this Policy; or any provision of the School District Provided Technology Device Form.

R. **Students** ~~Pupils~~ with Disabilities

A. Policy Statement

The Board of Education prohibits acts of harassment, intimidation, or bullying of a **student** ~~pupil~~. A safe and civil environment in school is necessary for **students** ~~pupils~~ to learn and achieve high academic standards. Harassment, intimidation, or bullying, like other disruptive or violent behaviors, is conduct that disrupts both a **student's** ~~pupil's~~ ability to learn and a school's ability to educate its **students** ~~pupils~~ in a safe and disciplined environment. Since **students** ~~pupils~~ learn by example, school administrators, faculty, staff and volunteers should be commended for demonstrating appropriate behavior, treating others with civility and respect, and refusing to tolerate harassment, intimidation, or bullying.

For the purposes of this Policy, the term "parent," pursuant to N.J.A.C. 6A:16-1.3, means the natural parent(s) or adoptive parent(s), legal guardian(s), foster parent(s), or parent surrogate(s) of a **student** ~~pupil~~. Where parents are separated or divorced, "parent" means the person or agency which has legal custody of the **student** ~~pupil~~, as well as the natural or adoptive parent(s) of the **student** ~~pupil~~, provided such parental rights have not been terminated by a court of appropriate jurisdiction.

B. Harassment, Intimidation, and Bullying Definition

"Harassment, intimidation, or bullying" means any gesture, any written, verbal or physical act, or any electronic communication, as defined in N.J.S.A. 18A:37-14, whether it be a single incident or a series of incidents that:

1. Is reasonably perceived as being motivated by either any actual or perceived characteristic, such as race, color, religion, ancestry, national origin, gender, sexual orientation, gender identity and expression, or a mental, physical or sensory disability~~;~~**,** or **by any other distinguishing characteristic;**

~~2. By any other distinguishing characteristic; and that~~

2~~3~~. Takes place on school property, at any school-sponsored function, on a school bus, or off school grounds, as provided for in N.J.S.A. 18A:37-15.3~~,~~**;** ~~that~~

3. **S**~~s~~ubstantially disrupts or interferes with the orderly operation of the school or the rights of other **students** ~~pupils~~; and that

a~~4~~. A reasonable person should know, under the circumstances, that the act(s) will have the effect of physically or emotionally harming a **student** ~~pupil~~ or damaging the **student's** ~~pupil's~~ property, or placing a **student** ~~pupil~~ in reasonable fear of physical or emotional harm to his/her person or damage to his/her property; or

b~~5~~. Has the effect of insulting or demeaning any **student** ~~pupil~~ or group of **students** ~~pupils~~; or

c~~6~~. Creates a hostile educational environment for the **student** ~~pupil~~ by interfering with a **student's** ~~pupil's~~ education or by severely or pervasively causing physical or emotional harm to the **student** ~~pupil~~.

Schools are required to address harassment, intimidation, and bullying occurring off school grounds, when there is a nexus between the harassment, intimidation, and bullying and the school (e.g., the harassment, intimidation, or bullying substantially disrupts or interferes with the orderly operation of the school or the rights of other students).

"Electronic communication" means a communication transmitted by means of an electronic device, including, but not limited to: a telephone, cellular phone, computer, or pager.

C. **Student** ~~Pupil~~ Expectations

The Board expects **students** ~~pupils~~ to conduct themselves in keeping with their levels of development, maturity and demonstrated capabilities with proper regard for the rights and welfare of other **students** ~~pupils~~ and school staff, the educational purpose underlying all school activities and the care of school facilities and equipment consistent with the Code of **Student** ~~Pupil~~ Conduct.

The Board believes that standards for **student** ~~pupil~~ behavior must be set cooperatively through interaction among the **students** ~~pupils~~, parents, school employees, school administrators, school volunteers, and community representatives, producing an atmosphere that encourages **students** ~~pupils~~ to grow in self-discipline. The development of this atmosphere requires respect for self and others, as well as for school district and community property on the part of **students** ~~pupils~~, staff, and community members.

Students ~~Pupils~~ are expected to behave in a way that creates a supportive learning environment. The Board believes the best discipline is self-imposed, and it is the responsibility of staff to use instances of violations of the Code of **Student** ~~Pupil~~ Conduct as opportunities to help **students** ~~pupils~~ learn to assume and accept responsibility for their behavior and the consequences of their behavior. Staff members who interact with **students** ~~pupils~~ shall apply best practices designed to prevent **student** ~~pupil~~ conduct problems and foster **students'** ~~pupils'~~ abilities to grow in self-discipline.

The Board expects that **students** ~~pupils~~ will act in accordance with the **student** ~~pupil~~ behavioral expectations and standards regarding harassment, intimidation, and bullying, including:

1. **Student** ~~Pupil~~ responsibilities (e.g., requirements for **students** ~~pupils~~ to conform to reasonable standards of socially accepted behavior; respect the person, property and rights of others; obey constituted authority; and respond to those who hold that authority);
2. Appropriate recognition for positive reinforcement for good conduct, self-discipline, and good citizenship;
3. **Student** ~~Pupil~~ rights; and
4. Sanctions and due process for violations of the Code of **Student** ~~Pupil~~ Conduct.

Pursuant to N.J.S.A. 18A:37-15(a) and N.J.A.C. 6A:16-7.1(a)1, the district has involved a broad-base of school and community members, including parents, **students** ~~pupils~~, instructional staff, **student** ~~pupil~~ support services staff, school administrators, and school volunteers, as well as community organizations, such as faith-based, health and human service, business and law enforcement, in the development of this Policy. The district may consider every mechanism available to simplify reporting, including standard reporting forms and/or web-based reporting mechanisms. For anonymous reporting, the district may consider locked boxes located in areas of a school where reports can be submitted without fear of being observed.

A school administrator who receives a report of harassment, intimidation, and bullying from a district employee, and fails to initiate or conduct an investigation, or who should have known of an incident of harassment, intimidation, or bullying and fails to take sufficient action to minimize or eliminate the harassment, intimidation, or bullying, may be subject to disciplinary action.

The Board **shall establish a range of responses to harassment, intimidation, and bullying incidents and** ~~authorizes~~ the Principal ~~of each school, in conjunction with~~ **and** the Anti-Bullying Specialist **shall appropriately apply these responses**~~,~~ ~~to define the range of ways in which school staff will respond~~ once an incident of harassment, intimidation, or bullying is confirmed~~,~~**.** ~~and the~~ **The** Superintendent shall respond to confirmed harassment, intimidation, and bullying, according to the parameters described in this Policy. The range of ways in which school staff will respond shall include an appropriate combination of counseling, support services, intervention services, and other programs. The Board recognizes that some acts of harassment, intimidation, or bullying may be isolated incidents requiring the school officials respond appropriately to the individual(s) committing the acts. Other acts may be so serious or parts of a larger pattern of harassment, intimidation, or bullying that they require a response either at the classroom, school building, or school district level or by law enforcement officials.

~~Consequences and appropriate remedial actions for a pupil who commits an act of harassment, intimidation, or bullying may range from positive behavioral interventions up to and including suspension or expulsion, as permitted under N.J.S.A. 18A:37-1, Discipline of Pupils and as set forth in N.J.A.C. 6A:16-7.2, Short-term Suspensions, N.J.A.C. 6A:16-7.3, Long-term Suspensions and N.J.A.C. 6A:16-7.5, Expulsions.~~

~~In considering whether a response beyond the individual level is appropriate, school officials shall consider the nature and circumstances of the act, the degree of harm, the nature and severity of the behavior, past incidences or past or continuing patterns of behavior, and the context in which the alleged incident(s) occurred. Institutional (i.e., classroom, school building, school district) responses can range from school and community surveys, to mailings, to focus groups, to adoption of research-based harassment, intimidation, or bullying prevention program models, to training for certificated and non-certificated staff, to participation of parents and other community members and organizations, to small or large group presentations for fully addressing the actions and the school's response to the actions, in the context of the acceptable pupil and staff member behavior and the consequences of such actions, and to the involvement of law enforcement officers, including safe schools resource officers.~~

For every incident of harassment, intimidation, or bullying, the school officials must respond appropriately to the individual who committed the act. ~~The Board is encouraged to set the parameters for the range of responses to be established by the Principal, in conjunction with the Anti-Bullying Specialist, and for the Superintendent to follow.~~ The range of responses to confirmed harassment, intimidation, or bullying acts should include individual, classroom, school, or district responses, as appropriate to the findings from each incident. Examples of responses that apply to each of these categories are provided below:

1. Individual responses can include **consistent and appropriate** positive behavioral interventions (e.g., peer mentoring, short-term counseling, life skills groups) ~~and punitive actions (e.g., detention, in-school or out-of-school suspension, expulsion, law enforcement report, or other legal action)~~ **intended to remediate the problem behaviors**.

2. Classroom responses can include class discussions about an incident of harassment, intimidation, or bullying, role plays **(when implemented with sensitivity to a student's situation or involvement with harassment, intimidation, and bullying)**, research projects, observing and discussing audio-visual materials on these subjects, and skill-building lessons in courtesy, tolerance, assertiveness, and conflict management.

3.
